

Freedom of the Press was is fundamental to this nation. The free exchange of all sides of a debate. The expression of opposing viewpoints if PROTECTED by the US Constitution for the very sake of maintaining the freeflow of ideas, whether we agree with thoses ideas or not.

Noone in the BROADCAST networks, ABC, CBS, NBC, or PBS has ever, not once considered interviewing the Swift Boat Vets, but are all too eager to accept one version of the facts without debate or discussion.

I APPLAUD Sinclair Broadcasting for doing what NO BROADCAST network had the backbone to do, and that is NOT buy in to the Party Line, and actually go out and do an investigation.

This website (freepress.net) should be ashamed, with the very thing your are trying to do is abhorant to liberty and the very namesake you have chosen for your website. You and the other Democratic websites, newspapers, and networks, ought to be embarrassed and ashamed to call Michael Moores attack piece a "documentary" and then try to censor Sinclair for trying to show a different point of view.

Is this the example of the Democratic Party. Do you get your ethical cues for the Soviets, censor all ideas you disagree with. You are all hypocrites, and ought to be embarrassed. If you were around in the 1780, we wouldn't even HAVE a first amendment. You have no sense of liberty, freedom, or responsibility. I am proud to say that I will NEVER vote for another democrat as long as I live.
